

For people who don't mess around with hoses!

RV Drinking Water Hose Reel

This Shoreline Hose Reel is designed and manufactured for the RV Industry. Eliminate the hassle and mess of storing your fresh water hose. Shoreline Reels' motorized hose reel has an IAMPO Approved to NSF Standards kink-free drinking water safe hose. Listed for potable water applications.

No other hose reel device retrieves more quickly or stores more compactly. Pull the hose and it free-spools off the reel...you only pull off what you need. To retrieve, push the button (motorized) or turn the hand crank (manual).

Save space, time and back breaking energy with this compact and cost effective hose management system.

FEATURES

Model CW40D01R-SR

- ▶ High Quality
- ▶ Compact Space Saving Design
- ▶ Motorized or Handcrank
- ▶ Clean, Safe, and Affordable
- ▶ Easily Installs with Common Hand Tools

BENEFITS
